

Taholah School District # 77

3/13/2020

We will be closing school to student beginning Monday until April 27th This is the Grays Harbor Health Departments directive and Governor Inslee. A few districts will close on Tuesday but we are in agreement with the immediate surrounding schools that we will close this Monday. Our staff will be working Monday and Tuesday to put together instructional resources for students. We know you have many questions, senior credits, instructional expectation and many others. We will be working closely with the state department of education for their guidance on this unchartered time. We are also creating a survey we need you to complete so we can see your needs, as far as lunches, computers etc. Thank you for your patience with us as we follow what is directed to us. Again, we will continue to quickly share information with you as we are informed.

I would like to remind you that the virus never entered the school. Our employee does not have the virus. She also has not been at the school since March 4th. We are not closing because of this. The closure is due to the Health Department, Governor Inslee and OSPI directive. Please keep everyone in mind as we all are facing uncertain times.

Sincerely,
Kathy
