

February 18, 2021

Dear families,

I hope all is well with everyone. It has been exciting to have more of our students back in-person. The building is certainly more alive now! We would like to remind everyone about our drop off and pick up procedures.

There will be a sign up tomorrow regarding student drop-offs and pick ups especially for our 4th, 5th, and 6th graders. These students will be walking to and lining up outside their classrooms. This means they need to be dropped off by the covered area (gate by the K/first grade classrooms, pass the front office area). Their teachers will be waiting for them by the outside classroom doors.

This change will help us lower the number of people in the commons area and help keep everyone safe. We also need to have parents/guardians stay in their cars when they drop off or pick up their child(ren). This also helps with the traffic flow and allows us to keep our capacity requirements. These requirements are mandated to us by the Department of Health.

Please let us know if you have any questions.

Thank you.
